SAMUEL TERRY ASSET MANAGEMENT

Dear Investor

Like many funds, the Samuel Terry Absolute Return Group (the “Fund”), comprising the Samuel Terry Absolute Return Fund (“STAR”) and the Samuel Terry Absolute Return Active Fund (“STAR Active”) aims to grow wealth for its investors. Despite this common objective, this Fund is different to many other funds in a number of key respects.

As the old saying goes, “we eat our own cooking”. I have most of my family’s non-house net worth in the Fund. The other portfolio managers, Nigel Burgess and Mitch Taylor, also have sizable investments in the Fund. We manage the Fund with the same prudence we exercise in managing our personal portfolios, but in a structure that enables others to participate with us.

We aim to buy most of the Fund’s securities at a price which ensures a margin of safety against loss, as well as the potential to generate returns of over 10% pa. Ideally, we aim to buy securities whose expected payoffs can be summarised as “heads we win, tails we don’t lose much”.

When we find investments we really like, we will sometimes invest a high proportion of the Fund in that investment. We think it usually makes sense to invest much more money into your best idea, than your twentieth best idea. Occasionally, we may buy large stakes in companies and take an active role in their management, including replacing company directors.

Unlike many of our competitors, we are not afraid to hold a high proportion of the Fund in cash, if we can’t find attractive investments.

Over the past twenty years our returns have been pleasing and we have created substantial wealth. Our performance is shown on our website at <https://www.samuelterry.com.au/performance-data.php>. Please note that the returns for A Class Units and the founder units may be different as the founder units in the Fund have a different hurdle rate than the A Class Units issued under this Information Memorandum.

We invest with a medium to long-term horizon and a substantial proportion of the portfolio is often in relatively obscure securities. For these reasons, we encourage unit holders with long-term investment horizons.

Our Fund is not for everyone. If, after reading these documents, you decide to invest in the Fund, we look forward to welcoming you as a fellow investor, and hope that our time together is both long and prosperous.

Yours sincerely

Fred Woollard

RISK FACTORS

Investment risk

All investments carry risk. Generally, investments with higher expected returns also carry higher levels of risk. Investing in the Fund carries risk. There is no guarantee that the Fund will achieve its investment objective and you may lose some or all of your investment.

Market risk

Economic, political and other factors may cause the overall investment market to fall in value. You may lose money on your investment in the Fund due to decreases in the price of securities held by the Fund or periods of below-average performance in a specific security or in the securities market as a whole.

Liquidity risk

Liquidity risk is the risk that if the Fund invests in assets that cannot be readily bought and sold at an acceptable price and within a generally acceptable timeframe, it may not be able to sell sufficient assets to pay redemptions. If this occurs, it may be necessary for the Fund to suspend redemptions to allow sufficient time to liquidate the assets required to meet redemptions.

Foreign Exchange risk

The Fund trades in offshore markets and is exposed to the risk of exchange rate movements as well as its underlying investment performance. Accordingly, the Fund is unsuitable for those who are not prepared to accept the risks associated with exchange rate movements.

Regulatory risk

Regulatory risk is the risk that regulatory or taxation changes introduced by a government or regulator, may affect the value of investments of the Fund. These changes may occur in Australia or other countries in which the Fund invests and include changes in government policies (including taxation), regulations and laws or changes in generally accepted accounting policies or valuation methods.

Counterparty risk

Counterparty risk is that the Fund's trading counterparties may become insolvent or otherwise not meet their obligations to the Fund. This may affect the value of your investment in the Fund.

Derivatives risk

Derivatives are financial instruments the value of which is derived from an underlying asset, rate or index. The Fund may use derivatives. Derivatives carry risks of their own, including liquidity risk, market risk and counterparty risk. Sometimes changes in the value of a derivative may not correlate directly with the underlying asset, rate or index.

Fund and Taxation risks

Investing in a pooled investment vehicle like the Fund is not the same as investing directly in its underlying assets which may have tax consequences for Unit holders. For example, there is a risk that investing in the Fund may give different results than investing directly in the assets because of income or capital gains accrued in the Fund and the consequences of redemption by other investors. The "Taxation Considerations" section below contains more information on this subject.

Concentration risk

The Fund aims to have a portfolio containing securities issued by around 20-30 companies. At times holdings in a single security may represent a substantial proportion of the Fund due to market movements or corporate actions. This may lead to more volatile returns than investing in a more diversified portfolio.

Emerging markets

The Fund invests from time to time in emerging markets such as Indonesia and Russia. These markets are often volatile and involve a greater risk of permanent loss of capital than investing in developed economies.

ADDITIONAL INFORMATION

ABOUT SAMUEL TERRY ASSET MANAGEMENT PTY LTD

Samuel Terry Asset Management Pty Ltd (ABN 71 108 611 785; AFSL 278294) (“STAM”) is a boutique investment management company based in Sydney, established in April 2004.

DIRECTORS OF STAM

Fred Woollard is the Managing Director of STAM and his family trust is the majority shareholder of STAM. He has worked in the stockbroking and funds management industry for over 35 years. Prior to founding STAM Mr Woollard held senior fund management positions at Hunter Hall International Ltd and a European based family office.

Mr Woollard has an Economics degree from the University of Sydney and is a Graduate of the AICD’s Company Directors’ Course. He spends all of his professional time in managing the Fund.

Nigel Burgess is a Director of STAM. He has over 30 years’ experience as an equities fund manager with Hunter Hall, GIO of Australia, Friends Provident in Australia and a family office in Europe. He is an active private investor and has worked with Fred Woollard on a diverse range of investments over many years.

Mr Burgess has an Economics/Finance degree and an Accounting masters degree from the University of NSW and is a Graduate of the AICD’s Company Directors’ Course.

Mitch Taylor is a Director of STAM. Mr Taylor has worked in financial markets since 2009. Prior to joining Samuel Terry in 2017, he worked for a boutique Australian fund manager.

Mr Taylor has a Commerce degree from the University of Sydney and a Master of Applied Finance from Macquarie University.

INVESTMENT STRATEGY

The Fund aims to have 20-30 investments in its portfolio, which are likely to include Australian and international shares, debt securities and derivatives, depending on where STAM perceives opportunities to be most attractive.

Most of the Fund’s securities are either listed on a stock exchange or can be actively traded in a market that permits independent third-party confirmation of pricing. However, some of its assets are unlisted or have limited liquidity, hence our Unit holders are encouraged to take a long-term view.

Since inception, the Fund has averaged weightings of 59.4% in Australian securities, 22.7% in overseas securities and 17.9% in cash.

The Fund is usually a “buy and hold” investor in most of its holdings. Finding, researching and getting to know companies is a slow and time-consuming process.

STAM generally keeps its weighting in any security held in the Fund below 10% of the Fund but does exceed this limit from time to time. In addition, from time to time STAM may acquire interests in operating businesses which will be held in the STAR Active Fund.

For more information about our investment style, you can see examples in the quarterly reports which can be found on our website www.samuelterry.com.au. The website also contains up-to-date information on the Fund.

TAXATION CONSIDERATIONS

Investing in the Fund is likely to have tax consequences for Unit holders. We strongly advise Unit holders to seek their own professional tax advice in relation to any investment decision they make with respect to investing in the Fund.

STAR is currently a managed investment trust (“MIT”) and STAM has made an election to apply the attribution MIT (“AMIT”) regime to STAR. Under the AMIT regime, taxable income flows through to Unit holders on an attribution basis rather than a distribution basis.

STAR is resident in Australia for tax purposes and should not generally be liable for income tax, as it will generally distribute all of its taxable income to investors each year.

STAR Active is resident in Australia for tax purposes and while it is a public trading trust will be taxed in a similar manner to a company.

STAR does not pay tax on behalf of Unit holders. Unit holders will be assessed for tax, depending on their circumstances, on the income they receive from STAR. STAM will be required to withhold an amount from a payment of Australian sourced net income (other than dividends, interest and royalties, certain capital gains and amounts that are not from an Australian source) to Unit holders that are foreign resident.

If STAR Active chooses to distribute (on a franked or unfranked basis) any of its income to Unit holders, they will be assessed for tax on that distribution, depending on their circumstances. STAR Active may be required to withhold an amount from a payment of Australian sourced net income (other than dividends, interest and royalties, certain capital gains and amounts that are not from an Australian source) to Unit holders that are foreign resident.

STAR ACTIVE – STAPLING STRUCTURE

STAR Active was established in 2019 to acquire STAR’s interest in an operating business. Unit holders resolved to staple the new “active” trust to the existing trust. Units in the two trusts trade together, with STAR Active trust being taxed as a company and STAR reverting to being taxed on a “flow-through” basis (assuming it distributes all of its taxable income in any year). Stapling in this way is quite common in the market.

Since units in STAR are stapled to units in STAR Active, units in STAR and in STAR Active must be traded together. Unit holders have an interest in each of the funds (i.e. Units to be issued under this Information Memorandum are A Class Units in each of STAR and STAR Active) and will be entitled to receive distributions in respect of those units when made. Unit holders will always hold the same amount of Units in STAR and STAR Active.

The Trustee may at any time make an income or capital payment from STAR to STAR Active as a capital reallocation amount provided that the Trustee is satisfied that the payment will be applied as an additional capital payment in respect of each Unit in STAR Active to which a Unit in STAR is stapled.

STAM is the Trustee for both STAR and STAR Active. The constitutions of STAR and STAR Active are substantially the same.

CLASSES OF UNITS

STAM has the sole and absolute right to issue other classes of units with different and/or similar features including but not limited to fees, charges and transaction costs, without the need to obtain the Unit holders’ approval before introducing such other classes of units to the Fund. The Units to be issued under this Information Memorandum have been designated “A Class Units” in each of STAR and STAR Active. There are also founder units and B class units on issue.

OUTSOURCED FUNCTIONS

STAM outsources the majority of the Fund’s core functions, including custodial services, fund administration services, accounting and auditing.

Custodial and administrative services

STAM has entered into a custody agreement and administration agreement with Link Fund Solutions Pty Ltd (“Link Fund Solutions”), ABN 44 114 914 215, appointing Link Fund Solutions to act as a third-party custodian and Fund administrator for the Fund.

Taxation services

PricewaterhouseCoopers Tax Services Pty Limited is engaged to perform taxation services for the Fund.

Auditor

Grant Thornton Audit Pty Ltd is the auditor of STAM and of the Fund.

HOW TO INVEST

Application Form

An application for Units in the Fund is an application for the same number of A class Units in STAR and STAR Active. The dollar amount allocated to STAR and STAR Active will be apportioned between them in the same proportion as the pre-tax Net Trust Value of STAR bears to the pre-tax Net Trust Value of STAR Active on the relevant date.

New investors in the Fund must fully complete, sign and lodge the Application Form in accordance with the instructions and as directed in the Application Form. New investors must provide all relevant information requested in the Application Form, including but not limited to, the relevant certification (if required) in relation to the new investor's status as a Wholesale Client.

The Application Form and monies should be received by the last Business Day of the month in order to be issued as at the Unit price next determined for the Fund.

The offer of A class Units contained in this document is restricted to Wholesale Clients.

The Initial Minimum Investment is currently \$A250,000 (aggregated total investment in the Fund).

STAM may in its absolute discretion reject an application for Units without giving a reason. If the application is rejected, the application monies without interest will be returned to the investor at the address notified on the Application Form.

HOW TO REDEEM UNITS

Unit holders who wish to make a Redemption Request must contact STAM or Link Fund Solutions in writing.

Redemption Requests require a minimum three month written notice. A Redemption Request is processed based on the unit price three months from the last Business Day of the month in which it is received.

A Redemption Request once received and accepted by the Trustee cannot be cancelled.

The proceeds of a Redemption Request will generally be paid to the redeeming Unit holder within 20 Business Days following the last business day of the month in which the minimum three month notice is given.

The table below sets out the applicable redemption request time frames:

Redemption Request by last business day:	Unit Price month end:	Payment Date 20th Business Day of:
June	September	October
July	October	November
August	November	December
September	December	January
October	January	February
November	February	March
December	March	April
January	April	May
February	May	June
March	June	July
April	July	August
May	August	September

In accordance with the Trust Deed, STAM may at its discretion change the time frames for the processing of redemption requests.

Unit holders who wish to make a Redemption Request must complete a Redemption Request Form and return to STAM or Link Fund Solutions.

The Trustee will redeem the same number of units in STAR and STAR Active.

Any redemption proceeds will be transferred to the Unit holder's nominated bank account.

Minimum Redemption Request

The "Minimum Redemption Amount" is \$A10,000 (aggregated redemption amount from STAR and STAR Active). STAM may reject a Redemption Request if the amount payable is less than the Minimum Redemption Amount.

The "Minimum Balance" is currently \$A50,000 (combined balance in STAR and STAR Active). If a Unit holder submits a Redemption Request that will result in the Unit holder holding less than the current Minimum Balance, STAM may treat the Redemption Request as applicable to all Units held by that Unit holder.

STAM may at any time in its absolute discretion suspend the redemption of Units in the Fund or refuse to redeem Units in accordance with the Redemption Request.

A Redemption Request lodged by a Unit holder during a period of suspension will be taken to be lodged immediately after the end of the period of suspension.

STAM may, in its discretion, satisfy the amount payable on redemption of Units by the transfer of assets in specie.

DISTRIBUTIONS

STAR will aim to distribute all distributable income at the end of the relevant tax year. STAR Active may make distributions in a tax year (which may or may not be franked) in its discretion.

Distributions are paid in \$A and are normally paid within 60 Business Days from the end of the relevant distribution period.

Distribution payment options

You can choose to have your distributions:

- reinvested in each of STAR and STAR Active as additional Units of the same class; or
- credited to your nominated bank account.

You can make your choice by ticking the appropriate box on the Application Form. If you do not make a choice, STAM will reinvest your distribution in the Fund.

If you choose to reinvest your distribution, new Units of the same class will be issued in each of STAR and STAR Active at the relevant Unit price (ex-distribution) for that class of Units at the beginning of the new financial year.

If you wish to change your distribution instructions, we need to receive these instructions on or before the Fund's distribution date.

FEES AND EXPENSES

Management Fee

STAM will charge a Management Fee of 1.5% pa (plus GST) of the pre-tax Net Trust Value of STAR and STAR Active while this Information Memorandum is on issue.

If STAM decides to change the Management Fee, Unit holders will be notified in writing and this Information Memorandum updated. STAM will provide 14 days' written notice before making any changes to the Management Fee.

The Management Fee is calculated and payable on the last Business Day of each calendar month, or at other times that STAM determines from time to time.

Performance Fee

STAM is entitled to a Performance Fee for each Unit on issue at the end of each Calculation Period. The "Calculation Period" is the period in relation to which the relevant calculation is made. The Performance Fee is calculated and accrued as at the end of each calendar month, monthly in arrears and paid after the end of the Fund's financial year. The Fund's financial year ends on 30 June. Calculation and payment of the Performance Fee may be deferred at STAM's discretion.

The Performance Fee is equal to 20% of pre-tax performance after Management Fees and other costs of running the Fund (plus GST) have been deducted, above a Benchmark Return. The Performance Fee is subject to a high-water mark.

The Benchmark Return is the Reserve Bank of Australia cash rate plus 2%pa.

The Performance Fee is calculated by the Trustee by reference to the aggregated assets and performance of STAR and STAR Active.

Accrued positive Performance Fee

- If the accrued Performance Fee at the end of a month is positive, it will be treated by the Fund Administrator as a liability of the Fund and carried forward to the next month, unless the month-end is June, the Fund's balance date.
- The Performance Fee will be calculated separately in respect of each class of Unit on issue and separately in respect of each of STAR and STAR Active. The Performance Fee for the A Class Units in each of STAR and STAR Active will be aggregated and if the accrued and aggregated Performance Fee at the end of June is positive, the Fund will pay that amount (plus GST) to STAM as soon as the Fund Administrator is satisfied that the Performance Fee calculation is correct and the accrued Performance Fee will be reset to zero.

Accrued negative Performance Fee

- The Performance Fee for the A Class Units in each of STAR and STAR Active will be aggregated and if the amount of the accrued and aggregated Performance Fee at the end of any month or end of a financial year is negative, STAM will not be required to rebate any amount of the Performance Fee but the amount of the Accrued Negative Fee will be carried forward to the next month or months and deducted to the extent possible from any positive amount that would otherwise have been payable as a Performance Fee in respect of that month or months, until such time as the Accrued Negative Fee has been recouped in full.
- Where the value of the Fund has fallen by 20% or more during a Calculation Period, STAM may reset a negative Accrued Negative Fee to a level that reflects the aggregate losses (relative to the Benchmark Return) that existing Unit holders have incurred. This calculation is to be done by the Fund Administrator and is intended to only be used in exceptional circumstances when the Fund has incurred substantial losses and had substantial redemptions by Unit holders. The procedure described in this paragraph has never been used (not even in the GFC of 2008/2009) and it is hoped that it will never need to be used.

STAM may pass on part of its management and performance fees to financial advisers and other third parties that introduce investors to the Fund.

Expenses

STAM is entitled to be reimbursed from the Fund in respect of a range of costs and expenses, which include but are not limited to, costs associated with the Trust Deeds (including amendments), Administrator's fees, Custodial fees, Unit holders' meetings, audit fees and government duties and taxes.

STAM is also entitled to be paid from the Fund for its out-of-pocket "activist" costs incurred by it in an attempt to maximise the price of securities held by the Fund. These costs include legal, investment banking, public relations and advertising costs.

UNIT HOLDER REPORTING

As a Unit holder you will receive regular reports including:

- a quarterly report advising on Fund performance and investments;
- a monthly statement showing the value of your investment in the Fund;
- an income distribution statement after each distribution (if any);
- annual taxation statement;
- annual audited financial statements;
- annual report of the Fund; and
- a transaction statement each time you make an investment, reinvestment or withdrawal.

TRUST DEED

The Trust Deeds for STAR and STAR Active (as amended from time to time) govern your rights and obligations as a Unit holder in each of those trusts. The Trust Deeds and the law determine the rights and obligations of Unit holders and determine the responsibilities and duties of STAM in its role as a trustee of the Fund. As a Unit holder you are bound by the provisions of the Trust Deeds.

If you are a Unit holder or potential investor and would like further information on the terms of the Trust Deeds please contact us for a free copy. They may be downloaded from our website: www.samuelterry.com.au.

Some complaints can be resolved more quickly depending on the facts and the nature of the complaint. If the complaint is more complex and takes longer than 28 days, we will communicate the reasons for the delay.

ANTI-MONEY LAUNDERING AND COUNTER-TERRORISM FINANCING LAWS

STAM and the Fund Administrator ("Entities") have implemented a number of measures and controls to ensure they comply with their obligations under the AML Laws, including carefully identifying Unit holders. As a result of the implementation of these measures and controls:

- transactions may be delayed, blocked, frozen or refused where an Entity has reasonable grounds to believe that the transaction breaches the law or sanctions of Australia or any other country. Applications cannot be processed unless all the necessary information is provided;
- where transactions are delayed, blocked, frozen or refused, the Entities are not liable for any loss Unit holders suffer (including consequential loss) as a result of their compliance with the AML Laws as they apply to the Entities; and
- an Entity may from time to time require additional information from you to assist it in this process.

The Entities have certain reporting obligations under the AML Laws and are prevented from informing Unit holders that any such reporting has taken place. Where required by law, an Entity may disclose the information gathered to regulatory or law enforcement agencies, including AUSTRAC.

FOREIGN TAXES AND FOREIGN TAX COMPLIANCE

The Foreign Account Tax Compliance Act (FATCA) is a US tax law which was enacted in 2010 for the purpose of improving tax information reporting regarding US persons in respect of their offshore investments to the United States Internal Revenue Service (IRS). On 28 April 2014, an Inter-Governmental Agreement (IGA) was signed between Australia and the US to facilitate the implementation of FATCA by Australian financial institutions.

In order to comply with FATCA requirements, the Fund:

- will require Investors to provide certain information regarding their identification and related information (including tax residency information) and will undertake certain due diligence procedures with respect to investors of the Fund to determine their status for FATCA reporting purposes. This information may be required at the time an application is made for the issue of units in the Fund or at any time after the units have been issued;
- will report annually to the IRS, via the ATO, in relation to relevant investors' information required by the ATO (if any) in respect of any investment in the Fund; and
- may withhold tax on US connected payments to non-participating foreign financial institutions.

Accordingly, by making an application to invest in the Fund, prospective investors agree to provide the Fund with certain identification and related information in order to enable it to comply with its obligations in connection with FATCA.

COMMON REPORTING STANDARDS

The Common Reporting Standard (CRS) is the single global standard for the collection, reporting and exchange of financial account information on foreign tax residents. Australia has signed the OECD Multilateral Competent Authority Agreement on Automatic Exchange of Account Information. This agreement enables CRS information to be exchanged between jurisdictions' tax authorities where relevant legislation has been adopted.

The Fund is required to collect certain information about any foreign tax residents to provide it to the Australian Taxation Office (ATO). The ATO may pass this information onto tax authorities in other jurisdictions who have adopted the CRS.

The requirements are similar to those which exist under FATCA, however, there are a greater number of countries in respect of which the ATO may provide information to the respective tax authorities.

By making an application to invest in the Fund, prospective investors agree to provide the Fund with certain identification and related information (including tax residency information) in order to enable it to comply with its obligations in connection with CRS.

SECTION 4: FATCA & CRS – SELF-CERTIFICATION DECLARATION

This certification must be completed by all investors to declare their FATCA & CRS status. Please refer to section 8 for explanations of terms before completing this form. Neither the Trustee of the Fund or Link Fund Solutions is able to provide you with tax or professional advice in respect of FATCA & CRS and we strongly encourage you to seek the advice of an experienced tax professional in relation to completing this form.

What are FATCA & CRS?

The U.S. Foreign Account Tax Compliance Act (FATCA) and the Common Reporting Standard (CRS) are two ways in which a large number of governments are seeking the same thing – to improve global tax compliance. Both require financial institutions to capture relevant information on foreign tax payers, as follows:

- FATCA promotes cross border tax compliance by U.S. taxpayers, by implementing an international standard for the automatic exchange of information related to those taxpayers. Australia has entered into an inter-governmental agreement (IGA) with the U.S. to implement FATCA in Australia, to be administered through the ATO. The AUS-USA FATCA IGA requires the ATO to obtain detailed account information for U.S. citizens and/or taxpayers on an annual basis. The effect of this is that, to satisfy their FATCA obligations, relevant Australian financial institutions must identify any U.S. taxpayers and report those taxpayers’ financial account data to the ATO.
- CRS is a global reporting standard, developed by the OECD, for the automatic exchange of information (AEOI). Its goal is to allow tax authorities to obtain a clearer understanding of financial assets held abroad by their residents, for tax purposes. Over 88 countries (refer to OECD link in section IV for participating jurisdictions) have agreed to share information on residents’ assets and incomes in accordance with defined reporting standards. Once again, this means that financial institutions around the globe must provide tax authorities with taxpayer financial account data, and the financial institutions must therefore collect this information from their customers and pass it on.
